

Capturing Diversity through the 2024 Lens Beyond Ocean Photo Competition

Photographs are an incredibly powerful medium to showcase life in the ocean. As such, we invite you to wield your lenses as a tool to celebrate, educate and highlight the rich tapestry of our incredible underwater world. Let your photographs serve as windows into worlds unseen, bridges connecting disparate realities, and catalysts for dialogue and understanding.

Prizes up for grab include dive travel, dive gear, and camera equipment. Winners will be selected according to these five categories: Macro, Wide-Angle, Compact Camera, 3-Minute Video, and Best of Malaysia by a Malaysian.

Whether you are a newbie or a seasoned photographer or videographer, we encourage you to share your talent with the dive community. Please register through the official website, www.lensbeyondocean.com. The final submission date is May 7th, 2024.

The competition also welcomes businesses and organisations interested in sponsoring prizes. In return, sponsors and their prizes will be promoted via MIDE's marketing channels, receiving international exposure.

All of the winning images and videos will be displayed at the MIDE event on June 7th to 9th, 2024, at Level 1, Hall 2, Malaysia International Trade and Exhibition Centre (MITEC), Kuala Lumpur, and showcased online.

For more information, head to www.lensbeyondocean.com or contact info@mide.com.my
